1 Large-Container Mix

FOR LARGE OUTDOOR POTS

INGREDIENTS

Garden soil	**0.75 cu ft**
Coir or peat	**0.75 cu ft**
Perlite or pumice	**0.50 cu ft**
Screened compost	**0.375 cu ft**

QUICK MIX

1. Break up the garden soil.
2. Blend in coir or pre-moistened peat.
3. Fold in perlite or pumice.
4. Add compost; moisten evenly.
5. Fill loosely; keep drain holes open.

YIELD 2.375 cu ft / 17.8 gal

For large outdoor containers only. Do not use garden soil alone in pots.

2

Raised-Bed Mix

FOR VEGETABLES, HERBS & FLOWERS

INGREDIENTS

Garden soil	**0.75 cu ft**
Finished compost	**0.75 cu ft**
Composted pine bark	**0.75 cu ft**
Coir or peat	**0.375 cu ft**
Perlite or pumice	**0.25 cu ft**

QUICK MIX

1. Combine soil, compost, and pine bark.
2. Mix in pre-moistened coir or peat.
3. Fold in perlite or pumice.
4. Moisten, remix, and let settle.

YIELD 2.875 cu ft / 21.5 gal

Scale batches to bed volume. Add aeration if the bed stays wet after rain.
